

Q1
(a) Figure Q1 is the timing information of a write cycle for data memory of a PIC18. Describe the main steps in the write cycle.

Q3
Are the following illegal? Explain
(a) MOVLW 0x500
(b) MOVWF 0xFFFF

(a) illegal, WREG just have 8 bit 500 is ~~over~~ exceed (5 marks)
(b) illegal, PIC18 just 12 bit, FFFF is exceed the range

Q4
During week 5, What are please suggest a topic for which you would like a video explanation

The relationship with PIC18 MOVLW, MOVWF, WREG (5 marks)
